~~practice agreement, and shall include newborn evaluation, resuscitation and referral for infants. Midwifery shall be practiced in accordance with a written agreement between the midwife and (i) a licensed physician who is board certified as an obstetrician-gynecologist by a national certifying body or (ii) a licensed physician who practices obstetrics and has obstetric privileges at a general hospital (licensed under article twenty-eight of the public health law) or (iii) a hospital (licensed under article twenty-eight of the public health law) that provides obstetrics through a licensed physician having obstetrical privileges at such institution. The written agreement shall provide guidelines for the identification of pregnancies that are not considered normal and address the procedures to be followed. The written agreement shall also provide a mechanism for dispute resolution and shall provide that the judgment of the appropriate physician shall prevail as to whether the pregnancy, childbirth or postpartum care is normal and whether the woman is essentially healthy in the event the practice protocols do not provide otherwise. A midwife shall have collaborative relationships with (i) a licensed physician who is board certified as an obstetrician-gynecologist by a national certifying body or (ii) a licensed physician who practices obstetrics and has obstetric privileges at a general hospital licensed under article twenty-eight of the public health law or (iii) a hospital, licensed under article twenty-eight of the public health law, that provides obstetrics through a licensed physician having obstetrical privileges at such institution, that provide for consultation, collaborative management and referral to address the health status and risks of his or her patients and that include plans for emergency medical gynecological and/or obstetrical coverage.
