School of Public Health

The Health Resources and Services Administration joins the Centers for Disease Control and Prevention (CDC) State Coordination Task Force and the Joint Information Center to host “Ebola 101 - Accessing Federal Guidance & Information Resources.”

This timely webinar will:

- Provide an overview of Ebola Virus Disease and the CDC’s current outbreak response activities
- Highlight important information resources that can be found on the CDC website
- Discuss guidance to academic institutions regarding students and faculty arriving to U.S. campuses from countries where Ebola outbreaks are happening
- Provide time for Q & A

**To log into the webinar, please use the following information:**

- Online Presentation: <https://hrsaseminar.adobeconnect.com/ebola101/>
- Enter your first and last name in the “guest” field when prompted.
