A BILL

To improve Federal efforts with respect to the prevention of maternal mortality, and for other purposes.

SEC. 1. SHORT TITLE.

This Act may be cited as the “Mothers and Offspring Mortality and Morbidity Awareness Act” or the “MOMMA’s Act”.

SEC. 2. FINDINGS.

Congress finds the following:
(1) Every year, across the United States, nearly 4,000,000 women give birth, about 700 women suffer fatal complications during pregnancy, while giving birth or during the postpartum period, and about 70,000 women suffer near-fatal, partum-related complications.

(2) The maternal mortality rate is often used as a proxy to measure the overall health of a population. While the infant mortality rate in the United States has reached its lowest point, the risk of death for women in the United States during pregnancy, childbirth, or the postpartum period is higher than such risk in many other high-income countries. The estimated maternal mortality rate (deaths per 100,000 live births) for the 48 contiguous States and Washington, D.C. increased from 14.5 percent in 2000 to 17.3 in 2017. The United States is the only industrialized nation with a rising maternal mortality rate.

(3) The National Vital Statistics System of the Centers for Disease Control and Prevention has found that in 2018, there were 17.4 maternal deaths for every 100,000 live births in the United States. This ratio is more than double that of most other high-income countries.
(4) It is estimated that more than 60 percent of maternal deaths in the United States are preventable.

(5) According to the Centers for Disease Control and Prevention, the maternal mortality rate varies drastically for women by race and ethnicity. There are about 13 deaths per 100,000 live births for White women, 40.8 deaths per 100,000 live births for non-Hispanic Black women, and 29.7 deaths per 100,000 live births for American Indian/Alaskan Native women. While maternal mortality disparately impacts Black women, this urgent public health crisis traverses race, ethnicity, socioeconomic status, educational background, and geography.

(6) In the United States, non-Hispanic Black women are about 3 times more likely to die from causes related to pregnancy and childbirth compared to non-Hispanic White women, which is one of the most disconcerting racial disparities in public health. This disparity widens in certain cities and States across the country.

(7) According to the National Center for Health Statistics of the Centers for Disease Control and Prevention, the maternal mortality rate heightens with age, as women 40 and older die at a rate of
81.9 per 100,000 births compared to 10.6 per 100,000 for women under 25. This translates to women over 40 being 7.7 times more likely to die compared to their counterparts under 25 years of age.

(8) The COVID–19 pandemic risks exacerbating the maternal health crisis. A recent study of the Centers for Disease Control and Prevention suggests that pregnant women are at a significantly higher risk for severe outcomes, including death, from COVID–19 as compared to non-pregnant women. The COVID–19 pandemic has also decreased access to prenatal and postpartum care.

(9) The findings described in paragraphs (1) through (8) are of major concern to researchers, academics, members of the business community, and providers across the obstetric continuum represented by organizations such as—

(A) the American College of Nurse-Midwives;

(B) the American College of Obstetricians and Gynecologists;

(C) the American Medical Association;

(D) the Association of Women’s Health, Obstetric and Neonatal Nurses;
(E) the Black Mamas Matter Alliance;
(F) the Black Women’s Health Imperative;
(G) the California Maternal Quality Care Collaborative;
(H) EverThrive Illinois;
(I) the Illinois Perinatal Quality Collaborative;
(J) the March of Dimes;
(K) the National Association of Certified Professional Midwives;
(L) the National Birth Equity Collaborative;
(M) the National Partnership for Women & Families;
(N) the National Polycystic Ovary Syndrome Association;
(O) the Preeclampsia Foundation;
(P) the Society for Maternal-Fetal Medicine; and
(Q) the What To Expect Project.

(10) Hemorrhage, cardiovascular and coronary conditions, cardiomyopathy, infection or sepsis, embolism, mental health conditions (including substance use disorder), hypertensive disorders, stroke and cerebrovascular accidents, and anesthesia com-
lications are the predominant medical causes of
maternal-related deaths and complications. Most of
these conditions are largely preventable or manage-
able. Even when these conditions are not prevent-
able, mortality and morbidity may be prevented
when conditions are diagnosed and treated in a
timely manner.

(11) According to a study published by the
Journal of Perinatal Education, doula-assisted
mothers are 4 times less likely to have a low-birth-
weight baby, 2 times less likely to experience a birth
complication involving themselves or their baby, and
significantly more likely to initiate breastfeeding.
Doula care has also been shown to produce cost sav-
ings resulting in part from reduced rates of cesarean
and pre-term births.

(12) Intimate partner violence is one of the
leading causes of maternal death, and women are
more likely to experience intimate partner violence
during pregnancy than at any other time in their
lives. It is also more dangerous than pregnancy. In-
timate partner violence during pregnancy and
postpartum crosses every demographic and has been
exacerbated by the COVID–19 pandemic.
(13) Oral health is an important part of perinatal health. Reducing bacteria in a woman’s mouth during pregnancy can significantly reduce her risk of developing oral diseases and spreading decay-causing bacteria to her baby. Moreover, some evidence suggests that women with periodontal disease during pregnancy could be at greater risk for poor birth outcomes, such as preeclampsia, pre-term birth, and low-birth weight. Furthermore, a woman’s oral health during pregnancy is a good predictor of her newborn’s oral health, and since mothers can unintentionally spread oral bacteria to their babies, putting their children at higher risk for tooth decay, prevention efforts should happen even before children are born, as a matter of pre-pregnancy health and prenatal care during pregnancy.

(14) In the United States, death reporting and analysis is a State function rather than a Federal process. States report all deaths—including maternal deaths—on a semi-voluntary basis, without standardization across States. While the Centers for Disease Control and Prevention has the capacity and system for collecting death-related data based on death certificates, these data are not sufficiently re-
mat across States such that the Centers for Disease
Control and Prevention is able to identify causes of
maternal death and best practices for the prevention
of such death.

(15) Vital statistics systems often underesti-
mate maternal mortality and are insufficient data
sources from which to derive a full scope of medical
and social determinant factors contributing to ma-
ternal deaths, such as intimate partner violence.
While the addition of pregnancy checkboxes on death
certificates since 2003 have likely improved States’
abilities to identify pregnancy-related deaths, they
are not generally completed by obstetric providers or
persons trained to recognize pregnancy-related mor-
tality. Thus, these vital forms may be missing infor-
mation or may capture inconsistent data. Due to
varying maternal mortality-related analyses, lack of
reliability, and granularity in data, current maternal
mortality informatics do not fully encapsulate the
myriad medical and socially determinant factors that
contribute to such high maternal mortality rates
within the United States compared to other devel-
oped nations. Lack of standardization of data and
data sharing across States and between Federal en-
tities, health networks, and research institutions
keep the Nation in the dark about ways to prevent
maternal deaths.

(16) Having reliable and valid State data ag-
ggregated at the Federal level are critical to the Na-
tion’s ability to quell surges in maternal death and
imperative for researchers to identify long-lasting
interventions.

(17) Leaders in maternal wellness highly rec-
ommend that maternal deaths and cases of maternal
morbidity, including complications that result in
chronic illness and future increased risk of death, be
investigated at the State level first, and that stand-
ardized, streamlined, de-identified data regarding
maternal deaths be sent annually to the Centers for
Disease Control and Prevention. Such data stand-
ardization and collection would be similar in oper-
ation and effect to the National Program of Cancer
Registries of the Centers for Disease Control and
Prevention and akin to the Confidential Enquiry in
Maternal Deaths Programme in the United King-
dom. Such a maternal mortalities and morbidities
registry and surveillance system would help pro-
viders, academicians, lawmakers, and the public to
address questions concerning the types of, causes of,
and best practices to thwart, maternal mortality and
morbidity.

(18) The United Nations’ Millennium Develop-
ment Goal 5a aimed to reduce by 75 percent, be-
tween 1990 and 2015, the maternal mortality rate,
yet this metric has not been achieved. In fact, the
maternal mortality rate in the United States has
been estimated to have more than doubled between

(19) Many States have struggled to establish or
maintain Maternal Mortality Review Committees
(referred to in this section as “MMRC”). On the
State level, MMRCs have lagged because States have
not had the resources to mount local reviews. State-
level reviews are necessary as only the State depart-
ments of health have the authority to request med-
ical records, autopsy reports, and police reports crit-
ical to the function of the MMRC.

(20) The United States has no comparable, co-
ordinated Federal process by which to review cases
of maternal mortality, systems failures, or best prac-
tices. Many States have active MMRCs and leverage
their work to impact maternal wellness. For exam-
ple, the State of California has worked extensively
with their State health departments, health and hos-
pital systems, and research collaborative organizations, including the California Maternal Quality Care Collaborative and the Alliance for Innovation on Maternal Health, to establish MMRCs, wherein such State has determined the most prevalent causes of maternal mortality and recorded and shared data with providers and researchers, who have developed and implemented safety bundles and care protocols related to pre eclampsia, maternal hemorrhage, peripartum cardiomyopathy, and the like. In this way, the State of California has been able to leverage its maternal mortality review board system, generate data, and apply those data to effect changes in maternal care-related protocol. To date, the State of California has reduced its maternal mortality rate, which is now comparable to the low rates of the United Kingdom.

(21) Hospitals and health systems across the United States lack standardization of emergency obstetric protocols before, during, and after delivery. Consequently, many providers are delayed in recognizing critical signs indicating maternal distress that quickly escalate into fatal or near-fatal incidences. Moreover, any attempt to address an obstetric emergency that does not consider both clinical and public
health approaches falls woefully under the mark of excellent care delivery. State-based perinatal quality collaboratives, or entities participating in the Alliance for Innovation on Maternal Health (AIM), have formed obstetric protocols, tool kits, and other resources to improve system care and response as they relate to maternal complications and warning signs for such conditions as maternal hemorrhage, hypertension, and preeclampsia. These perinatal quality collaboratives serve an important role in providing infrastructure that supports quality improvement efforts addressing obstetric care and outcomes. State-based perinatal quality collaboratives partner with hospitals, physicians, nurses, patients, public health, and other stakeholders to provide opportunities for collaborative learning, rapid response data, and quality improvement science support to achieve systems-level change.

(22) The Centers for Disease Control and Prevention reports that nearly half of all maternal deaths occur in the immediate postpartum period—the 42 days following a pregnancy—whereas more than one-third of maternal deaths occur while a person is still pregnant. Further, 21 percent of maternal deaths occur between 1 and 6 weeks postpartum,
and 12 percent of maternal deaths occur during the remaining portion of the postpartum year. Yet, for women eligible for the Medicaid program on the basis of pregnancy, such Medicaid coverage lapses at the end of the month on which the 60th postpartum day lands.

(23) The experience of serious traumatic events, such as being exposed to domestic violence, substance use disorder, or pervasive and systematic racism, can over-activate the body’s stress-response system. Known as toxic stress, the repetition of high-doses of cortisol to the brain, can harm healthy neurological development and other body systems, which can have cascading physical and mental health consequences, as documented in the Adverse Childhood Experiences study of the Centers for Disease Control and Prevention.

(24) A growing body of evidence-based research has shown the correlation between the stress associated with systematic racism and one’s birthing outcomes. The undue stress of sex and race discrimination paired with institutional racism has been demonstrated to contribute to a higher risk of maternal mortality, irrespective of one’s gestational age, maternal age, socioeconomic status, educational level,
or individual-level health risk factors, including poverty, limited access to prenatal care, and poor physical and mental health (although these are not nominal factors). Black women remain the most at risk for pregnancy-associated or pregnancy-related causes of death. When it comes to preeclampsia, for example, for which obesity is a risk factor, Black women of normal weight remain at a higher at risk of dying during the perinatal period compared to non-Black obese women.

(25) The rising maternal mortality rate in the United States is driven predominantly by the disproportionately high rates of Black maternal mortality.

(26) Compared to women from other racial and ethnic demographics, Black women across the socio-economic spectrum experience prolonged, unrelenting stress related to systematic racial and gender discrimination, contributing to higher rates of maternal mortality, giving birth to low-weight babies, and experiencing pre-term birth. Racism is a risk-factor for these aforementioned experiences. This cumulative stress, called weathering, often extends across the life course and is situated in everyday spaces where Black women establish livelihood. Systematic racism,
structural barriers, lack of access to care, lack of access to nutritious food, and social determinants of health exacerbate Black women’s likelihood to experience poor or fatal birthing outcomes, but do not fully account for the great disparity.

(27) Black women are twice as likely to experience postpartum depression, and disproportionately higher rates of preeclampsia compared to White women.

(28) Racism is deeply ingrained in United States systems, including in health care delivery systems between patients and providers, often resulting in disparate treatment for pain, irreverence for cultural norms with respect to health, and dismissiveness. However, the provider pool is not primed with many people of color, nor are providers (whether maternity care clinicians or maternity care support personnel) consistently required to undergo implicit bias, cultural competency, respectful care practices, or empathy training on a consistent, ongoing basis.

(29) Not all people who have been pregnant or given birth identify as being a “woman”. The terms “birthing people” or “birthing persons” are also used to describe pregnant and postpartum people.
SEC. 3. IMPROVING FEDERAL EFFORTS WITH RESPECT TO PREVENTION OF MATERNAL MORTALITY.

(a) Technical Assistance for States With Respect to Reporting Maternal Mortality.—Not later than one year after the date of enactment of this Act, the Director of the Centers for Disease Control and Prevention (referred to in this section as the “Director”), in consultation with the Administrator of the Health Resources and Services Administration, shall provide technical assistance to States that elect to report comprehensive data on maternal mortality and factors relating to such mortality (including oral and mental health), intimate partner violence, and breastfeeding health information, for the purpose of encouraging uniformity in the reporting of such data and to encourage the sharing of such data among the respective States.

(b) Best Practices Relating to Prevention of Maternal Mortality.—

(1) In General.—Not later than one year after the date of enactment of this Act—

(A) the Director, in consultation with relevant patient and provider groups, shall issue best practices to State maternal mortality review committees on how best to identify and review maternal mortality cases, taking into account any data made available by States relat-
ing to maternal mortality, including data on oral, mental, and breastfeeding health, and utilization of any emergency services; and

(B) the Director, working in collaboration with the Health Resources and Services Administration, shall issue best practices to hospitals, State professional society groups, and perinatal quality collaboratives on how best to prevent maternal mortality.

(2) AUTHORIZATION OF APPROPRIATIONS.—For purposes of carrying out this subsection, there is authorized to be appropriated $5,000,000 for each of fiscal years 2021 through 2025.

(e) ALLIANCE FOR INNOVATION ON MATERNAL HEALTH GRANT PROGRAM.—

(1) IN GENERAL.—Not later than one year after the date of enactment of this Act, the Secretary of Health and Human Services (referred to in this subsection as the “Secretary”), acting through the Associate Administrator of the Maternal and Child Health Bureau of the Health Resources and Services Administration, shall establish a grant program to be known as the Alliance for Innovation on Maternal Health Grant Program (referred to in this subsection as “AIM”) under which the Secretary
shall award grants to eligible entities for the purpose of—

(A) directing widespread adoption and implementation of maternal safety bundles through collaborative State-based teams; and

(B) collecting and analyzing process, structure, and outcome data to drive continuous improvement in the implementation of such safety bundles by such State-based teams with the ultimate goal of eliminating preventable maternal mortality and severe maternal morbidity in the United States.

(2) ELIGIBLE ENTITIES.—In order to be eligible for a grant under paragraph (1), an entity shall—

(A) submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require; and

(B) demonstrate in such application that the entity is an interdisciplinary, multi-stakeholder, national organization with a national data-driven maternal safety and quality improvement initiative based on implementation approaches that have been proven to improve
maternal safety and outcomes in the United States.

(3) USE OF FUNDS.—An eligible entity that receives a grant under paragraph (1) shall use such grant funds—

(A) to develop and implement, through a robust, multi-stakeholder process, maternal safety bundles to assist States, perinatal quality collaboratives, and health care systems in aligning national, State, and hospital-level quality improvement efforts to improve maternal health outcomes, specifically the reduction of maternal mortality and severe maternal morbidity;

(B) to ensure, in developing and implementing maternal safety bundles under subparagraph (A), that such maternal safety bundles—

(i) satisfy the quality improvement needs of a State, perinatal quality collaborative, or health care system by factoring in the results and findings of relevant data reviews, such as reviews conducted by a State maternal mortality review committee; and
(ii) address topics which may include—

(I) information on evidence-based practices to improve the quality and safety of maternal health care in hospitals and other health care settings of a State or health care system, including by addressing topics commonly associated with health complications or risks related to prenatal care, labor care, birthing, and postpartum care;

(II) best practices for improving maternal health care based on data findings and reviews conducted by a State maternal mortality review committee that address topics of relevance to common complications or health risks related to prenatal care, labor care, birthing, and postpartum care;

(III) information on addressing determinants of health that impact maternal health outcomes for women before, during, and after pregnancy;

(IV) obstetric hemorrhage;
(V) obstetric and postpartum care for women with substance use disorders, including opioid use disorder;

(VI) maternal cardiovascular system;

(VII) maternal mental health;

(VIII) postpartum care basics for maternal safety;

(IX) reduction of peripartum racial and ethnic disparities;

(X) reduction of primary caesarean birth;

(XI) severe hypertension in pregnancy;

(XII) severe maternal morbidity reviews;

(XIII) support after a severe maternal morbidity event;

(XIV) thromboembolism;

(XV) optimization of support for breastfeeding;

(XVI) maternal oral health; and

(XVII) Intimate partner violence; and
(C) to provide ongoing technical assistance at the national and State levels to support implementation of maternal safety bundles under subparagraph (A).

(4) MATERNAL SAFETY BUNDLE DEFINED.—For purposes of this subsection, the term “maternal safety bundle” means standardized, evidence-informed processes for maternal health care.

(5) AUTHORIZATION OF APPROPRIATIONS.—For purposes of carrying out this subsection, there is authorized to be appropriated $10,000,000 for each of fiscal years 2021 through 2025.

(d) FUNDING FOR STATE-BASED PERINATAL QUALITY COLLABORATIVES DEVELOPMENT AND SUSTAINABILITY.—

(1) IN GENERAL.—Not later than one year after the date of enactment of this Act, the Secretary of Health and Human Services (referred to in this subsection as the “Secretary”), acting through the Division of Reproductive Health of the Centers for Disease Control and Prevention, shall establish a grant program to be known as the State-Based Perinatal Quality Collaborative grant program under which the Secretary awards grants to eligible entities for the purpose of development and sustainability of
perinatal quality collaboratives in every State, the
District of Columbia, and eligible territories, in
order to measurably improve perinatal care and
perinatal health outcomes for pregnant and
postpartum women and their infants.

(2) GRANT AMOUNTS.—Grants awarded under
this subsection shall be in amounts not to exceed
$250,000 per year, for the duration of the grant pe-
riod.

(3) STATE-BASED PERINATAL QUALITY COL-
laborative defined.—For purposes of this sub-
section, the term “State-based perinatal quality col-
laborative” means a network of teams that—

(A) is multidisciplinary in nature and in-
cludes the full range of perinatal and maternity
care providers;

(B) works to improve measurable outcomes
for maternal and infant health by advancing
evidence-informed clinical practices using qual-
ity improvement principles;

(C) works with hospital-based or out-
patient facility-based clinical teams, experts,
and stakeholders, including patients and fami-
lies, to spread best practices and optimize re-
sources to improve perinatal care and outcomes;
(D) employs strategies that include the use of the collaborative learning model to provide opportunities for hospitals and clinical teams to collaborate on improvement strategies, rapid-response data to provide timely feedback to hospital and other clinical teams to track progress, and quality improvement science to provide support and coaching to hospital and clinical teams;

(E) has the goal of improving population-level outcomes in maternal and infant health; and

(F) has the goal of improving outcomes of all birthing people, through the coordination, integration, and collaboration across birth settings.

(4) Authorization of Appropriations.—For purposes of carrying out this subsection, there is authorized to be appropriated $14,000,000 per year for each of fiscal years 2021 through 2025.

(e) Expansion of Medicaid and CHIP Coverage for Pregnant and Postpartum Women.—

(1) Requiring coverage of oral health services for pregnant and postpartum women.—
(A) MEDICAID.—Section 1905 of the Social Security Act (42 U.S.C. 1396d) is amended—

(i) in subsection (a)(4)—

(I) by striking ‘‘; and (D)’’ and inserting ‘‘; (D)’’; and

(II) by inserting ‘‘; and (E) oral health services for pregnant and postpartum women (as defined in subsection (hh))’’ after ‘‘subsection (bb))’’; and

(ii) by adding at the end the following new subsection:

‘‘(hh) Oral Health Services for Pregnant and Postpartum Women.—

‘‘(1) In general.—For purposes of this title, the term ‘oral health services for pregnant and postpartum women’ means dental services necessary to prevent disease and promote oral health, restore oral structures to health and function, and treat emergency conditions that are furnished to a woman during pregnancy (or during the 1-year period beginning on the last day of the pregnancy).

‘‘(2) Coverage requirements.—To satisfy the requirement to provide oral health services for
pregnant and postpartum women, a State shall, at
a minimum, provide coverage for preventive, diag-
nostic, periodontal, and restorative care consistent
with recommendations for perinatal oral health care
and dental care during pregnancy from the Amer-
ican Academy of Pediatric Dentistry and the Amer-
ican College of Obstetricians and Gynecologists.”.

(B) CHIP.—Section 2103(c)(5)(A) of the
Social Security Act (42 U.S.C.
1397cc(c)(5)(A)) is amended by inserting “or a
targeted low-income pregnant woman” after
“targeted low-income child”.

(2) EXTENDING MEDICAID COVERAGE FOR
PREGNANT AND POSTPARTUM WOMEN.—Section
1902 of the Social Security Act (42 U.S.C. 1396a)
is amended—

(A) in subsection (e)—

(i) in paragraph (5)—

(I) by inserting “(including oral
health services for pregnant and
postpartum women (as defined in sec-
tion 1905(hh)))” after “postpartum
medical assistance under the plan”;
and
(II) by striking “60-day” and inserting “1-year”; and

(ii) in paragraph (6), by striking “60-day” and inserting “1-year”; and

(B) in subsection (l)(1)(A), by striking “60-day” and inserting “1-year”.

(3) EXTENDING MEDICAID COVERAGE FOR LAWFUL RESIDENTS.—Section 1903(v)(4)(A)(i) of the Social Security Act (42 U.S.C. 1396b(v)(4)(A)(i)) is amended by striking “60-day” and inserting “1-year”.

(4) EXTENDING CHIP COVERAGE FOR PREGNANT AND POSTPARTUM WOMEN.—Section 2112(d)(2)(A) of the Social Security Act (42 U.S.C. 1397ll(d)(2)(A)) is amended by striking “60-day” and inserting “1-year”.

(5) MAINTENANCE OF EFFORT.—

(A) MEDICAID.—Section 1902(l) of the Social Security Act (42 U.S.C. 1396a(l)) is amended by adding at the end the following new paragraph:

“(5) During the period that begins on the date of enactment of this paragraph and ends on the date that is five years after such date of enactment, as a condition for receiving any Federal payments under section 1903(a)
for calendar quarters occurring during such period, a
State shall not have in effect, with respect to women who
are eligible for medical assistance under the State plan
or under a waiver of such plan on the basis of being preg-
nant or having been pregnant, eligibility standards, meth-
methodologies, or procedures under the State plan or waiver
that are more restrictive than the eligibility standards,
methodologies, or procedures, respectively, under such
plan or waiver that are in effect on the date of enactment
of this paragraph.”.

(B) CHIP.—Section 2105(d) of the Social
Security Act (42 U.S.C. 1397ee(d)) is amended
by adding at the end the following new para-
graph:

“(4) IN ELIGIBILITY STANDARDS FOR TAR-
GETED LOW-INCOME PREGNANT WOMEN.—During
the period that begins on the date of enactment of
this paragraph and ends on the date that is five
years after such date of enactment, as a condition
of receiving payments under subsection (a) and sec-
tion 1903(a), a State that elects to provide assist-
ance to women on the basis of being pregnant (in-
cluding pregnancy-related assistance provided to tar-
geted low-income pregnant women (as defined in
section 2112(d)), pregnancy-related assistance pro-
vided to women who are eligible for such assistance through application of section 1902(v)(4)(A)(i) under section 2107(e)(1), or any other assistance under the State child health plan (or a waiver of such plan) which is provided to women on the basis of being pregnant) shall not have in effect, with respect to such women, eligibility standards, methodologies, or procedures under such plan (or waiver) that are more restrictive than the eligibility standards, methodologies, or procedures, respectively, under such plan (or waiver) that are in effect on the date of enactment of this paragraph.’’.

(6) INFORMATION ON BENEFITS.—The Secretary of Health and Human Services shall make publicly available on the Internet website of the Department of Health and Human Services, information regarding benefits available to pregnant and postpartum women and under the Medicaid program and the Children’s Health Insurance Program, including information on—

(A) benefits that States are required to provide to pregnant and postpartum women under such programs;
(B) optional benefits that States may provide to pregnant and postpartum women under such programs; and

(C) the availability of different kinds of benefits for pregnant and postpartum women, including oral health and mental health benefits, under such programs.

(7) FEDERAL FUNDING FOR COST OF EXTENDED MEDICAID AND CHIP COVERAGE FOR POSTPARTUM WOMEN.—

(A) MEDICAID.—Section 1905 of the Social Security Act (42 U.S.C. 1396d), as amended by paragraph (1), is further amended—

(i) in subsection (b), by striking “and (ff)” and inserting “(aa), and (ii)”; and

(ii) by adding at the end the following:

“(b) INCREASED FMAP FOR EXTENDED MEDICAL ASSISTANCE FOR POSTPARTUM WOMEN.—Notwithstanding subsection (b), the Federal medical assistance percentage for a State, with respect to amounts expended by such State for medical assistance for a woman who is eligible for such assistance on the basis of being pregnant or having been pregnant that is provided during the 305-day period that begins on the 60th day after the last day...
of her pregnancy (including any such assistance provided during the month in which such period ends), shall be equal to—

“(1) 100 percent for the first 20 calendar quarters during which this subsection is in effect; and

“(2) 90 percent for calendar quarters thereafter.”.

(B) CHIP.—Section 2105(c) of the Social Security Act (42 U.S.C. 1397ee(c)) is amended by adding at the end the following new paragraph:

“(12) ENHANCED PAYMENT FOR EXTENDED ASSISTANCE PROVIDED TO PREGNANT WOMEN.—Notwithstanding subsection (b), the enhanced FMAP, with respect to payments under subsection (a) for expenditures under the State child health plan (or a waiver of such plan) for assistance provided under the plan (or waiver) to a woman who is eligible for such assistance on the basis of being pregnant (including pregnancy-related assistance provided to a targeted low-income pregnant woman (as defined in section 2112(d)), pregnancy-related assistance provided to a woman who is eligible for such assistance through application of section 1902(v)(4)(A)(i) under section 2107(e)(1), or any
other assistance under the plan (or waiver) provided to a woman who is eligible for such assistance on the basis of being pregnant) during the 305-day period that begins on the 60th day after the last day of her pregnancy (including any such assistance provided during the month in which such period ends), shall be equal to—

“(A) 100 percent for the first 20 calendar quarters during which this paragraph is in effect; and

“(B) 90 percent for calendar quarters thereafter.”.

(8) GUIDANCE ON STATE OPTIONS FOR MEDICAID COVERAGE OF DOULA SERVICES.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Health and Human Services, acting through the Administrator of the Centers for Medicare & Medicaid Services, shall issue guidance for the States concerning options for Medicaid coverage and payment for support services provided by doulas.

(9) EFFECTIVE DATE.—

(A) IN GENERAL.—Subject to subparagraph (B), the amendments made by this subsection shall take effect on the first day of the
first calendar quarter that begins on or after
the date that is one year after the date of en-
actment of this Act.

(B) Exception for state legislation.—In the case of a State plan under title
XIX of the Social Security Act or a State child
health plan under title XXI of such Act that
the Secretary of Health and Human Services
determines requires State legislation in order
for the respective plan to meet any requirement
imposed by amendments made by this sub-
section, the respective plan shall not be re-
garded as failing to comply with the require-
ments of such title solely on the basis of its fail-
ure to meet such an additional requirement be-
fore the first day of the first calendar quarter
beginning after the close of the first regular
session of the State legislature that begins after
the date of enactment of this Act. For purposes
of the previous sentence, in the case of a State
that has a 2-year legislative session, each year
of the session shall be considered to be a sepa-
rate regular session of the State legislature.

(f) Regional Centers of Excellence.—Part P
of title III of the Public Health Service Act (42 U.S.C.
280g et seq.) is amended by adding at the end the following new section:

“SEC. 399V–7. REGIONAL CENTERS OF EXCELLENCE ADDRESSING IMPLICIT BIAS AND CULTURAL COMPETENCY IN PATIENT-PROVIDER INTERACTIONS EDUCATION.

“(a) IN GENERAL.—Not later than one year after the date of enactment of this section, the Secretary, in consultation with such other agency heads as the Secretary determines appropriate, shall award cooperative agreements for the establishment or support of regional centers of excellence addressing implicit bias, cultural competency, and respectful care practices in patient-provider interactions education for the purpose of enhancing and improving how health care professionals are educated in implicit bias and delivering culturally competent health care.

“(b) ELIGIBILITY.—To be eligible to receive a cooperative agreement under subsection (a), an entity shall—

“(1) be a public or other nonprofit entity specified by the Secretary that provides educational and training opportunities for students and health care professionals, which may be a health system, teaching hospital, community health center, medical school, school of public health, school of nursing, dental school, social work school, school of profes-
sional psychology, or any other health professional school or program at an institution of higher education (as defined in section 101 of the Higher Education Act of 1965) focused on the prevention, treatment, or recovery of health conditions that contribute to maternal mortality and the prevention of maternal mortality and severe maternal morbidity;

“(2) demonstrate community engagement and participation, such as through partnerships with home visiting and case management programs;

“(3) demonstrate engagement with groups engaged in the implementation of health care professional training in implicit bias and delivering culturally competent care, such as departments of public health, perinatal quality collaboratives, hospital systems, and health care professional groups, in order to obtain input on resources needed for effective implementation strategies; and

“(4) provide to the Secretary such information, at such time and in such manner, as the Secretary may require.

“(c) DIVERSITY.—In awarding a cooperative agreement under subsection (a), the Secretary shall take into account any regional differences among eligible entities
and make an effort to ensure geographic diversity among award recipients.

“(d) Dissemination of Information.—

“(1) Public availability.—The Secretary shall make publicly available on the internet website of the Department of Health and Human Services information submitted to the Secretary under subsection (b)(3).

“(2) Evaluation.—The Secretary shall evaluate each regional center of excellence established or supported pursuant to subsection (a) and disseminate the findings resulting from each such evaluation to the appropriate public and private entities.

“(3) Distribution.—The Secretary shall share evaluations and overall findings with State departments of health and other relevant State level offices to inform State and local best practices.

“(e) Maternal Mortality Defined.—In this section, the term ‘maternal mortality’ means death of a woman that occurs during pregnancy or within the one-year period following the end of such pregnancy.

“(f) Authorization of Appropriations.—For purposes of carrying out this section, there is authorized to be appropriated $5,000,000 for each of fiscal years 2021 through 2025.”.

(1) by striking the clause designation and heading and all that follows through “A State” and inserting the following:

“(ii) WOMEN.—

“(I) Breastfeeding women.—

A State’’;

(2) in subclause (I) (as so designated), by striking “1 year” and all that follows through “earlier” and inserting “2 years postpartum”; and

(3) by adding at the end the following:

“(II) Postpartum women.—A State may elect to certify a postpartum woman for a period of 2 years.”.

(h) Definitions.—In this section:

(1) Maternal mortality.—The term “maternal mortality” means death of a woman that occurs during pregnancy or within the one-year period following the end of such pregnancy.

(2) Pregnancy related death.—The term “pregnancy related death” includes the death of a
woman during pregnancy or within one year of the
end of pregnancy from a pregnancy complication, a
chain of events initiated by pregnancy, or the aggra-
vation of an unrelated condition by the physiologic
effects of pregnancy.

(3) **SEVERE MATERNAL MORBIDITY.**—The term
“severe maternal morbidity” includes unexpected
outcomes of labor and delivery that result in signifi-
cant short-term or long-term consequences to a
woman’s health.

**SEC. 4. INCREASING EXCISE TAXES ON CIGARETTES AND**

**ESTABLISHING EXCISE TAX EQUITY AMONG**

**ALL TOBACCO PRODUCT TAX RATES.**

(a) **Tax Parity for Roll-Your-Own Tobacco.—**
Section 5701(g) of the Internal Revenue Code of 1986 is
amended by striking “$24.78” and inserting “$49.56”.

(b) **Tax Parity for Pipe Tobacco.—** Section
5701(f) of the Internal Revenue Code of 1986 is amended
by striking “$2.8311 cents” and inserting “$49.56”.

(c) **Tax Parity for Smokeless Tobacco.—**

(1) Section 5701(e) of the Internal Revenue
Code of 1986 is amended—

(A) in paragraph (1), by striking “$1.51”
and inserting “$26.84”;
(B) in paragraph (2), by striking “50.33 cents” and inserting “$10.74”; and

(C) by adding at the end the following:

“(3) SMOKELESS TOBACCO SOLD IN DISCRETE SINGLE-USE UNITS.—On discrete single-use units, $100.66 per thousand.”.

(2) Section 5702(m) of such Code is amended—

(A) in paragraph (1), by striking “or chewing tobacco” and inserting “, chewing tobacco, or discrete single-use unit”;

(B) in paragraphs (2) and (3), by inserting “that is not a discrete single-use unit” before the period in each such paragraph; and

(C) by adding at the end the following:

“(4) DISCRETE SINGLE-USE UNIT.—The term ‘discrete single-use unit’ means any product containing, made from, or derived from tobacco or nicotine that—

“(A) is not intended to be smoked; and

“(B) is in the form of a lozenge, tablet, pill, pouch, dissolvable strip, or other discrete single-use or single-dose unit.”.

(d) TAX PARITY FOR SMALL CIGARS.—Paragraph (1) of section 5701(a) of the Internal Revenue Code of
1986 is amended by striking "$50.33" and inserting "$100.66".

(c) Tax Parity for Large Cigars.—

(1) In General.—Paragraph (2) of section 5701(a) of the Internal Revenue Code of 1986 is amended by striking "52.75 percent" and all that follows through the period and inserting the following: "$49.56 per pound and a proportionate tax at the like rate on all fractional parts of a pound but not less than 10.066 cents per cigar.”.

(2) Guidance.—The Secretary of the Treasury, or the Secretary’s delegate, may issue guidance regarding the appropriate method for determining the weight of large cigars for purposes of calculating the applicable tax under section 5701(a)(2) of the Internal Revenue Code of 1986.

(f) Tax Parity for Roll-Your-Own Tobacco and Certain Processed Tobacco.—Subsection (o) of section 5702 of the Internal Revenue Code of 1986 is amended by inserting “, and includes processed tobacco that is removed for delivery or delivered to a person other than a person with a permit provided under section 5713, but does not include removals of processed tobacco for exportation” after “wrappers thereof”.
(g) Clarifying Tax Rate for Other Tobacco Products.—

(1) In General.—Section 5701 of the Internal Revenue Code of 1986 is amended by adding at the end the following new subsection:

“(i) Other Tobacco Products.—Any product not otherwise described under this section that has been determined to be a tobacco product by the Food and Drug Administration through its authorities under the Family Smoking Prevention and Tobacco Control Act shall be taxed at a level of tax equivalent to the tax rate for cigarettes on an estimated per use basis as determined by the Secretary.”.

(2) Establishing Per Use Basis.—For purposes of section 5701(i) of the Internal Revenue Code of 1986, not later than 12 months after the later of the date of the enactment of this Act or the date that a product has been determined to be a tobacco product by the Food and Drug Administration, the Secretary of the Treasury (or the Secretary of the Treasury’s delegate) shall issue final regulations establishing the level of tax for such product that is equivalent to the tax rate for cigarettes on an estimated per use basis.
(h) **Clarifying Definition of Tobacco Products.**—

(1) **In General.**—Subsection (e) of section 5702 of the Internal Revenue Code of 1986 is amended to read as follows:

“(e) **Tobacco Products.**—The term ‘tobacco products’ means—

“(1) cigars, cigarettes, smokeless tobacco, pipe tobacco, and roll-your-own tobacco, and

“(2) any other product subject to tax pursuant to section 5701(i).”.

(2) **Conforming Amendments.**—Subsection (d) of section 5702 of such Code is amended by striking “cigars, cigarettes, smokeless tobacco, pipe tobacco, or roll-your-own tobacco” each place it appears and inserting “tobacco products”.

(i) **Increasing Tax on Cigarettes.**—

(1) **Small Cigarettes.**—Section 5701(b)(1) of such Code is amended by striking “$50.33” and inserting “$100.66”.

(2) **Large Cigarettes.**—Section 5701(b)(2) of such Code is amended by striking “$105.69” and inserting “$211.38”.

(j) **Tax Rates Adjusted for Inflation.**—Section 5701 of such Code, as amended by subsection (g), is
amended by adding at the end the following new sub-
section:

“(j) Inflation Adjustment.—

“(1) In General.—In the case of any calendar
year beginning after 2021, the dollar amounts pro-
vided under this chapter shall each be increased by
an amount equal to—

“(A) such dollar amount, multiplied by

“(B) the cost-of-living adjustment deter-

mined under section 1(f)(3) for the calendar

year, determined by substituting ‘calendar year

2020’ for ‘calendar year 2016’ in subparagraph

(A)(ii) thereof.

“(2) Rounding.—If any amount as adjusted

under paragraph (1) is not a multiple of $0.01, such

amount shall be rounded to the next highest multiple

of $0.01.”.

(k) Floor Stocks Taxes.—

(1) Imposition of Tax.—On tobacco products

manufactured in or imported into the United States

which are removed before any tax increase date and

held on such date for sale by any person, there is

hereby imposed a tax in an amount equal to the ex-

cess of—
(A) the tax which would be imposed under section 5701 of the Internal Revenue Code of 1986 on the article if the article had been removed on such date, over

(B) the prior tax (if any) imposed under section 5701 of such Code on such article.

(2) CREDIT AGAINST TAX.—Each person shall be allowed as a credit against the taxes imposed by paragraph (1) an amount equal to $500. Such credit shall not exceed the amount of taxes imposed by paragraph (1) on such date for which such person is liable.

(3) LIABILITY FOR TAX AND METHOD OF PAYMENT.—

(A) LIABILITY FOR TAX.—A person holding tobacco products on any tax increase date to which any tax imposed by paragraph (1) applies shall be liable for such tax.

(B) METHOD OF PAYMENT.—The tax imposed by paragraph (1) shall be paid in such manner as the Secretary shall prescribe by regulations.

(C) TIME FOR PAYMENT.—The tax imposed by paragraph (1) shall be paid on or be-
before the date that is 120 days after the effective
date of the tax rate increase.

(4) Articles in Foreign Trade Zones.—
Notwithstanding the Act of June 18, 1934 (com-
monly known as the Foreign Trade Zone Act, 48
Stat. 998, 19 U.S.C. 81a et seq.), or any other pro-
vision of law, any article which is located in a for-
egn trade zone on any tax increase date shall be
subject to the tax imposed by paragraph (1) if—

(A) internal revenue taxes have been deter-
mined, or customs duties liquidated, with re-
spect to such article before such date pursuant
to a request made under the 1st proviso of sec-
tion 3(a) of such Act, or

(B) such article is held on such date under
the supervision of an officer of the United
States Customs and Border Protection of the
Department of Homeland Security pursuant to
the 2d proviso of such section 3(a).

(5) Definitions.—For purposes of this sub-
section—

(A) In General.—Any term used in this
subsection which is also used in section 5702 of
such Code shall have the same meaning as such
term has in such section.
(B) Tax increase date.—The term “tax increase date” means the effective date of any increase in any tobacco product excise tax rate pursuant to the amendments made by this section (other than subsection (j) thereof).

(C) Secretary.—The term “Secretary” means the Secretary of the Treasury or the Secretary’s delegate.

(6) Controlled groups.—Rules similar to the rules of section 5061(e)(3) of such Code shall apply for purposes of this subsection.

(7) Other laws applicable.—All provisions of law, including penalties, applicable with respect to the taxes imposed by section 5701 of such Code shall, insofar as applicable and not inconsistent with the provisions of this subsection, apply to the floor stocks taxes imposed by paragraph (1), to the same extent as if such taxes were imposed by such section 5701. The Secretary may treat any person who bore the ultimate burden of the tax imposed by paragraph (1) as the person to whom a credit or refund under such provisions may be allowed or made.

(I) Effective dates.—

(1) In general.—Except as provided in paragraphs (2) through (4), the amendments made by
this section shall apply to articles removed (as defined in section 5702(j) of the Internal Revenue Code of 1986) after the last day of the month which includes the date of the enactment of this Act.

(2) DISCRETE SINGLE-USE UNITS AND PROCESSED TOBACCO.—The amendments made by subsections (c)(1)(C), (c)(2), and (f) shall apply to articles removed (as defined in section 5702(j) of the Internal Revenue Code of 1986) after the date that is 6 months after the date of the enactment of this Act.

(3) LARGE CIGARS.—The amendments made by subsection (e) shall apply to articles removed after December 31, 2021.

(4) OTHER TOBACCO PRODUCTS.—The amendments made by subsection (g)(1) shall apply to products removed after the last day of the month which includes the date that the Secretary of the Treasury (or the Secretary of the Treasury’s delegate) issues final regulations establishing the level of tax for such product.
