PROFILE

I am a Certified Nurse Midwife with a Master’s degree from Frontier Nursing University. I have been an RN for 14 years and worked in women’s health and labor and delivery for 8 of those years. I currently am an independent provider and own a midwifery practice, where I see women’s health patients, and provide pregnancy care and home birth services. My clinical experiences as a nurse midwife include working in a FQHC providing full scope midwifery services, providing point of care ultrasounds in clinic, first assisting in c-sections, precepting midwifery students, and volunteering time at the local pregnancy support center. I have recently served as a delegate for ACNM in the UAE and October 2023 to Cambodia.
